MAA DURGA POLYCHEM

We Understands Your Needs....

MDPC- Uvitex OB

Product Information

MDPC-Uvitex OB is a heat resistant, solvent soluble, chemically stable fluorescent whitener that provides brighter looking colors. It is used to offset the yellowness of a polymer and to yield a whiter appearance. Optical brighteners create brilliance by absorbing UV light, modifying the wavelength of the light and then emitting the light in a fluorescent fashion.

Product Name	MDPC-Uvitex OB
Description	Optical Brightner
CAS No.	40470-68-6
C.I. No.	184
Appearance	Slight Greenish Yellow Powder
Molecular Formula	$C_{26}H_{26}N_2O_2N_2$
Molecular Weight	430
Melting Point	200~202°C.
Purity	≥99%
Particle size	≥100
Ash	≤0.1%
Uses	Mainly used in whiteing of CPW(Chlorinated Paraffin Wax), PVC(Poly Vinyl Chloride), PP(Poly Propylene), Paints & Inks etc.

ADVANTAGES:

- FDA cleared for use in all polymers, adhesives and pressure-sensitive adhesives
- Brilliant, bluish white effect that compensates for yellowing
- Highly compatible with a wide range of organic substrates and solvents
- In combination with dyes, produces particularly bright shades
- Useful as tracer in clear coating, adhesives and sealants
- Good light fastness and low volatility
- Exceptional whitening properties
- Excellent resistance to heat

The above mentioned chemical product has no poison, no pollution and no cauterization, It is a common chemical product.
